WEATHER REPORT.

For the South Atlantic States, higher barometer, nearly stationary temperature, southeast to southwest winds and partly cloudy or cloudy weather will prevail, with frequent thunder storms.

——The Tilden and Vance Club meets to-night.

——Attorney General Hargrove has returned to the city.

——The Chief of Police has received a descriptive list of about 250 deserters from the regular army, general service, and others.

——The Executive Committee of the State Agricultural Society, was to have met last night, but did not; on account of the weather.

——The temperance meeting which was to have been held last night at Metropolitan Hall, did not take place. The weather prevented.

——The rain which began yesterday afternoon, continued until after midnight, and will do great good for the agricultural interests of this section.

——Mrs. Brown is building a nice residence on Edenton street, next to the residence of Rev. Dr. T. H. Pritchard. It will be occupied, when completed, by Dr. T. D. Martin.

——Chas. R. Hunter, who has a stall in the market, laid on the table in this office, last evening, a lot of elegant peaches and grapes, for which thanks are hereby returned.

——The telegrams this morning state that Lewis P. Olds, formerly of this city, and formerly Attorney General of the State, was nominated, yesterday, by the President, as Consul to St. Helena.

——The Tilden and Vance Club, of this city, will be pretty well scattered to-morrow Delegations from the club will be at Milburnie, Swift Creek and New Light, where clubs are to be formed.

——The Grand Lodge of Good Templars will adjourn, it is thought, to-night There has been a great deal of business before the body, and even after a three days' session, it is doubtful if all will be disposed of.

——The dog war is to be resumed to-day, and every canine found without a badge, will fall by the edge of the sword, so to speak. The slaughter was desisted from recently, after 30 dogs had been killed, but a new squad upon which the tax has not been paid, has just been found.

——On Fayetteville street, yesterday, Aunt Abby House cursed a darkey over the head because he had addressed her, as she considered, discourteously. Like Buck Fanshaw, when things need regulating, Aunt Abby don't wait for somebody to regulate it; she just wades in and regulates it herself.

Points of Interest.

Our Good Templar friends, after the labors of their session are ended to-day, can find several points about the city which will interest and instruct them. Some of these are: the asylum for the deaf, the dumb and the blind, and that for the insane; the Penitentiary, the graded school, the normal school, the State Library, the State Geological Museum, Oakwook Cemetery, &c. At any of these places the visitor can spend an hour profitably, and the authorities at any of them will do them the courtesy to show them around.

Again.

Apropos of the bean shooters, a correspondent in the city writes us that on West street it is impossible to turn around without stumbling over a boy with one of these implements of destruction. A cow belonging to our correspondent, came home the other evening with an eye put out by a shot from one of these things, and the owner avows that he would not have had it done for $25.00. In view of these things, it is well to pause for a moment amid the rush and turmoil of this Centennial year, and seriously ask if the tax-paying citizen of this glorious republic has no rights *at all*, which the small boy is bound to respect.

I. O. G. T.

Third Day's Proceedings.

MORNING SESSION.

The meeting was opened with religious exercises, which were conducted by Rev. W. C. Bowman, of Mitchell county.

The G. W. C. Templar then called the Grand Lodge to order.

The proceedings of yesterday were read and adopted.

The various committees submitted reports, which were adopted.

A resolution was offered to abolish the lecture tax fund. Adopted.

The Committee on the *Spirit of the Age* submitted a report, which was defeated.

Representative Storr introduced a resolution in relation to the Juvenile Temples. Referred to the Committee on the State of the Order.

It was decided not to hold a public meeting at night.

The Grand Lodge then adjourned.

AFTERNOON SESSION.

The following officers were elected:

G. W. Counsellor—Moses Gilliam

G. W. V. T—Miss Iola H. Bledsoe.

G W. Secretary—S. J. Fall.

G. W. Treasurer—V. Ballard.

N. B. Broughton, Miss Iola H. Bledsoe and Rev. A. D. Cohen were elected representatives to the Right Worthy Grand Lodge, which meets in Portland, Maine, on the fourth Tuesday in May, 1877.

The following are the Alternates: Miss Blanche Fentress, H. E. Myrick and Rev. Dr. W. B. Harrell.

NIGHT SESSION.

The Grand Lodge met at 8 o'clock, N. B. Broughton, P. G. W. Templar, then installed the newly elected officers. Then several short addresses were delivered by the newly installed officers. A resolution to pay the G. W. C. T. was defeated.

The Grand Lodge then adjourned until this morning.

The Horn Blower and Col. Ike Young in Johnston.

These two worthies have just finished their canvass of Johnston county, having made nine speeches in the county. They began in the most reckless manner, making all manner of charges against the Democratic party and individual Democrats, never dreaming that there would be any one to reply to them. In this however, they were mistaken; for after their first speeches, Messrs Z. J. Lemay and P. M. Stewart took them up and followed them all around the county, shelling them on every stump which they mounted. They refused to divide time with Mr. Lemay, but invariably after they had spoken, the crowd called him up and he devoted himself to the previous speakers. He went all over the county with them, and gentlemen from Johnston inform us that he did excellent service by his stirring speeches, exposing to the people in the most effectual manner, the falsehoods of Smith and Young. Smith's speeches were simply pleas for votes, telling the people of his great friendship for them, and how he never refused to do them a favor. Our informant says further that Johnston will certainly go Democratic, and that the horn-blower himself has abandoned all hope of carrying it.

The University—Its New Professor.

We have made mention of the appointment of Capt. C. D. Grandy, of Granville, to the Assistant Professorship of Mathematics and Chemistry in the University. The appointment is universally regarded as an excellent one, as he is a young man, active, energetic, and of fine talents and acquirements. He is one of the talented young men of North Carolina, such as Winston, Pearson, Lassiter, Jacob Battle, Lewis and others, who have carried off the highest honors in great institutions North of us.

We hear that there are about eighty students in the department of Chemistry, general and applied, under Profs. Redd and Grandy. In a week or two the College of Agriculture will be reinforced by a new Professor. Several nominations have been made for that professorship, of excellent men, and the trustees will shortly decide between them.

Instruction at the University is now of the highest order, and no young man should go beyond our State limits for his education.

Very Just.

The election by the Grand Lodge, I. O. G. T., of Theo. N. Ramsay, as the Grand Worthy Chief Templar of the order, in the State, was a just reward for the unflagging energy which he has displayed in the past, in the temperance cause. The offices of G. W. C. T. and Grand Lecturer were merged into one, and Mr. R. was elected to the consolidated offices. He deserved the promotion, and this can be said without the least disparagement of the former Grand Worthy Chief Templar, N. B. Broughton, Esq., than whom there is not a more zealous or efficient worker in the cause of total abstinence in the State.

RATIFICATION MEETING IN WILMINGTON.

Unparalleled Demonstrations and Enthusiasm—Glorious Speeches from Hons. George Davis and D. G. Fowle.

[Special to the News.]

WILMINGTON, N. C August 10—Notwithstanding the very unfavorable weather, the Democratic ratification meeting, held here to-night, was a grand success. No such demonstration has been witnessed here since the war. The torch-light procession reached many blocks, and the wildest enthusiasm prevailed. Hon. George Davis presided, and made a glorious speech of twenty minutes, in which he administered a scathing rebuke to Radicalism and Grantism in every shape.

Mr. Davis then introduced Hon. D. G. Fowle, who was received with a perfect storm of applause. Being his first speech in Wilmington, public expectation was on tip-toe to hear him. His speech was one of the finest ever delivered here, and was received with unbounded satisfaction. His solid arguments enchained the attention of his audience, while his brilliant flights of eloquence thrilled every heart. Fowle made a splendid hit, and hosts of friends. B.

Old John Coming.

Mr. F. H. Bailey, railroad advance agent of old John Robinson's widely-known, largely popular and "strictly moral circus," is in the city again. He has finally succeeded in making terms with the railroads, and the show will be here on the 16th of September. It will arrive from Petersburg and Weldon, come up the Raleigh and Gaston Railroad, making two or three stands between Weldon and Raleigh; hence go to Fayetteville, and doubling back, stop once before arriving here. Here it gives a performance, after which it doubles back to Portsmouth and Norfolk, over to Tennessee, into Georgia, up to Charlotte, down to Wilmington and out of the State. Mr. Bailey could not make satisfactory terms with the North Carolina Railroad, and the circus will not therefore travel by this line.

We make the announcement of old John's coming, with joy and gladness. It will take many a poor fellow's last nickel, but it is worth the last button on his coat to witness the gambols of the animated monkey, and to watch the tricks of the festive mule, not to speak of the jokes of the spotted-breeches clown or the ponderous "snoot" of the amiable elephant.

The Government Building.

It is thought that the stone work of the government building will be finished by the 1st of October, by which time also the roof will be fairly under way. There are now employed on the building, forty-six hands, the number having been materially reduced by the recent discharge of the stone cutters Of the force now at work, only two men are stone layers; this is as many as can be worked in this capacity, it not being judicious to prosecute work of this kind—the stone setting—too rapidly. The work on this building was commenced about two years ago, and the public anxiously awaits its completion. A great defect in the structure, is the amount of wood which was used, and the superintendent, it is said, endeavored to induce the government to change this feature of the contract, but without effect.

The Penitentiary Board.

The Board of Directors of the Penitentiary, which meets on the second Tuesday of each month, adjourned yesterday, after having been in session since Tuesday last. The Board agreed to let out to Col. Fain, of the Marietta, Georgia & North Carolina Railroad (extending from Marietta, Ga., to Murphy, N. C.,) fifty of the convicts in the State Prison, provided the Commissioners of the Western North Carolina Railroad will agree to this. The Commissioners are yet to hear from.

Gone to Washington.

Now Col. Ike Young has gone on to Washington. The telegrams report that Thos. B. Keogh, Chairman of the Republican State Executive Committee, is there, confabing with the President, and Young has no doubt gone on for the purpose of adding his solicitations to those of Keogh, for troops to be sent here to secure his election. Young has said he intends to use "every d——d cent of money he can get his hands on, but what he will be elected," and he no doubt intends to have every soldier he can get, to further this end.

Sanitary Condition of the City.

Officer Goodwin, of the police force, has just finished his second or third tour of the city. He has visited all the premises in the corporation with a view to seeing whether or no the sanitary regulations have been obeyed and of having them enforced where they have not been. He expresses the opinion that the city was never before so clean as it is now, and his examination has been very thorough.

The Gold Mines of North Carolina.

Mr. J. H. Jones, the English gentleman who has been in this State for some months past, investigating the gold mines, and whose views on the subject, as far as he has formed them, have been given considerable publicity by the press of the State, is at the Yarborough House, for a day or two. He is now operating on Deep River, in Moore county, just across the Chatham line, where he has a large force at work, sinking two shafts, about a quarter of a mile apart. Judging from the surface ores, Mr. Jones thinks that those under ground will yield at least 30 per cent, or $100 to the ton, which yield miners regard as highly profitable. One of these shafts will be 6x8 feet in the clear, and the other 4½x6 feet. They will be sunk deep, and with a view to permanency.

Regarding the gold mines of this State, Mr. Jones says they are the finest in the world. Those in South America will not equal them, and those of California, Nevada and Utah will not begin to compare with them. He reiterates the assertion which he has previously made, that enough gold can be found in Moore county N. C., alone, to pay the national debt. He has repeatedly taken pans full of earth from the Pee Dee, in Montgomery county, (and these pans do not hold more than two quarts or two and a half), and has never yet done so without finding gold. He says that all in the world North Carolina needs to make her wealthy, is for enterprise and capital to take hold of these mines and develope them. He never saw such surface ores anywhere, and the penetration of the earth where these are found, has never failed to show all that is promised on top.

Mr. Jones has been corresponding of late with the London *Mining Journal* with regard to the value of the mines in this State, and it is to be hoped that the information conveyed by his letters, will induce capital from across the waters to invest itself here. He received, only a few days ago, a letter from a wealthy English company with which he was engaged in mining, asking for particular information as to the work in which he is now engaged on Deep River, and as to his prospects. Mr. Jones is a modest gentleman, who makes little pretension to [illegible] opinions, and what he says regarding these things gives us great hope for the future of the Old North State.

Vance and Settle's Appointments.

By reference to the proper head, it will be seen that Gov. Vance and Judge Settle are advertised to speak on the 23d at Cartel's Mills, Moore county; on the 24th at Carthage, the county seat, and on the 25th at Jonesboro. These appointments are made by the County Executive Committees of Randolph and Moore. Gov. Vance is wanted also in Chatham and Johnston, and will no doubt visit these counties after finishing in Moore and before going back over the mountains, to Clay.

Excursion to the Centennial.

Quite a number of persons will leave this city next Tuesday for Philadelphia, when the regular Tuesday $18.-75 round trip tickets will be on sale. The Knights of Pythias have secured special rates, and forty or fifty of these will go on the same train, at $15 50 for the round trip. Aside from the Knights of Pythias, the following and perhaps others will go: John G. Williams and family, E. R. Stamps, and Judge Meade and wife.

A Candidate for a Bald Head;

Mayor Manly has received a letter from a citizen of Charlotte, in which the writer states that he understands that a company is being raised in Raleigh to go to the West and fight Sitting Bull, and that if this is true, he wishes to enlist. He gives his age, size and references. And yet they say we do not love the nation!

To Democratic Clubs.

As business of importance between the Tilden-Vance Club, of Raleigh, and other clubs in the State, will probably come before them during the campaign, the Corresponding Secretary of the Raleigh Club asks us to request other clubs throughout the State to send the names of their respective secretaries to him as soon as practicable.

The Latest from Chatham.

A gentleman from Chatham informs us that the Democratic cause in his county is flourishing, and that there is only one white man in the county but will vote for Vance, and his excuse is that once would not allow the Georgia niggers to kill Holden during the war when they wanted to.

LETTERS FROM THE PEOPLE.

Affairs in Chatham.

PITTSBORO, N. C., August 8, 1876.

Mr. Editor:—The crops throughout Chatham county have suffered much from drought. The recent rains, however, have revived them to the standard of a fair crop of corn and cotton. Oats and wheat were harvested before the excessive drought, and may be classed as fairer than usual.

Badger's failure to get a crowd the other day at Pittsboro, is that the Republicans of Pittsboro have become so indifferent to politics, or so disgusted with their party, that they don't go out to hear their speeches.

I put down Tilden's majority in Chatham at 400, and Vance's at 500. Why? Because there are numbers of people who have been voting with the Republicans heretofore, and who thought really that such men as Col. Ike Young and Dr. Chapin, of this county, could not be wrong in their politics; but when they heard that Chapin had charged Col. Young with mal-administration of the Revenue department of this District, and that Col. Young, in his wrath, had whipped Chapin in Raleigh, *in presence* of General Washington, they began to doubt who was right.

As to candidates for the Legislature for this county, it is hardly spoken of as yet, but be assured we will have right men, who will carry the county.

As to subscribers to the NEWS, we can't get up a club, as everybody has subscribed already, except *myself*, and you may put me down as one.

EXCELSIOR.

A. T. & V. Club at Chapel Hill.

CHAPEL HILL, N. C., August 8, 1876.

Mr. Editor:—A Tilden and Vance Club of seventy-five members was formed at this place on Wednesday evening, the 2d inst., after the county candidates had concluded speaking, with the following officers: President, J. M. Alexander; First Vice President, R. E. Carr; Second Vice President, Wm. M. Suggs; Secretary, James Phillips.

RELIEF FOR HARD TIMES.

$12,058.00.

Twelve Thousand and Fifty-eight Dollars is now in hand, and ready to be delivered by W. H. CROW, Manager, and General Agent of the Ætna Life Insurance Company, to the representatives of Calvin J. Rogers, dec'ased.

This amount, added to previous losses paid by the Ætna Company in this department, makes over six hundred and ten thousand dollars, and for this large amount which was brought into the State, only ninety thousand dollars was taken out of the State to secure it.

The Ætna Company have assets to pay future losses amounting to

$23,000,000.00.

Theory is a fine thing but fact is practical. When a man insures his life he commits to the keeping of the company a great and solemn trust involving so far as money can effect it, the future of his family. The fidelity of the Ætna Company in paying its losses promptly is commended to the confidence of all who may desire to make a certain provision for their loved ones.

MR. TOURGEE says that "Republicans are the cream of the old Whig and Democratic parties." He forgot to tell us that carpet-baggers are the cats that steal the cream.

IT IS predicted that Governor Brogden will release numerous Penitentiary convicts in time for the November election. Go it, Governor; make hay while the sun shines. After the amendments are adopted, felons will be disfranchised.

THE JUDGES at Philadelphia have shown a determination to put down crime and criminals, with so little delay, that men arrested one day for rascality have been on their way to serve out long sentences of imprisonment on this next. This is a Centennial innovation we should like to see introduced down here.

THE NEW YORK *Herald* says that "one of the phrases oftenest used about the Southern States is that they 'must become like the North.'" When we do become "like the North," the negro will take the subordinate place in the government that nature designed him for; and the reign of the carpet-bagger will be ended.

THE MINORITY REPORT of the Committee appointed by Congress to investigate affairs in Mississippi, say that Federal interference has always been followed (and very naturally) by local discontent and disorders, as the case of Louisiana, North Carolina, Georgia, Virginia, Texas and Arkansas are living proofs, in their increased prosperity and tranquility, of the wisdom of non-interference.

NO PEACE UNDER NEGRO RULE.

Republicans insist that the only hope of peace between the races in the South is the dominance of their party. The Democrats, they say would fall at once to killing negroes and playing old scratch generally, if the Republican party should lose power in this State.

The ignorant colored men are thoroughly indoctrinated with this idea. To say that they look upon Democratic ascendancy with genuine fright, by reason of the bugbears with which their designing leaders scare them, is not to exaggerate the case at all.

James Harris, one of their race, has declared that if Tilden and Hendricks are elected, Hamburg massacres would be of daily occurrence with us.

The Radical teachings on this subject are false as deceit itself. To demonstrate this we have but to compare the Democratic States of the South with the Republican.

Profound peace prevails within the borders of Virginia. There the white people are completely in the ascendant. Equally quiet is Tennessee. In Georgia not a ripple disturbs the pacific relations of the races at present. There is harmony, good-will, prosperity; no clashings, no conflicts, no strife and bitterness. In Alabama an election has just been held. The Democrats triumphed. The election was quiet. Throughout the State it was fair, and there was not a complaint of intimidation. The races there are at peace with each other.

In Texas the same pacific political condition is observable; while in Arkansas and Mississippi the troubles that had existed by reason of negro supremacy and carpet-bag rascality, ceased with the coming of the Conservative party into power.

How is it in South Carolina and Louisiana? Trouble, trouble, all the time. Fights, massacres, burnings, riots and the like. These things are the direct result of black rule. There can be, there will be, no peace where the Anglo-Saxon is subjected to the degrading, tyrannical and unnatural control of his inferior, the African—an alien and a black skin.

The only guarantee of peace and prosperity in the South, is the supremacy of the white race. Both theory and experience unite in proving this.

The men of true Anglo-Saxon blood will never submit quietly to be governed by negroes. The colored men and their white allies may as well recognize that fact at once. In proof of this fact we point to Louisiana and South Carolina which have never known a day of genuine peace since the negro got possession of the State government in those States, and the owners of property were taxed without representation, plundered without mercy, and subjected to the debasing, torturing dominion of negro Judges, negro Congressmen, negro Presidents of Senates, negro Speakers of Houses of Representatives, negro Treasurers, negro Secretaries, negro Superintendents of Public Schools, negro Adjutant Generals, negro Militia Generals, and other negro officials.

We appeal to the white men of North Carolina to save this State from the terrible fate of South Carolina and Louisiana; and place it alongside such grand commonwealths as Virginia, Georgia, Alabama, Tennessee, and Texas.

A BRACE OF HYPOCRITES.

The Radical Convention for the Sixth Congressional District met in Monroe last Saturday. Parson Sinclair, the infamous Robeson county Radical, was the Chairman; and the meeting was opened with prayer by J. G. Hester.

The delegations present shows what a colored concern the Republican party in that section is. There were eight delegates from other counties present, six white and two colored, the rest of the crowd being mostly county negroes.

There were of course many things to nauseate an honest man, but the Monroe *Enquirer* says:

The most disgusting scene was at the "pole raising," where J. G. Hester arose with a Bible in his hand and *preached a sermon* to the negroes in the street. Any one who has any idea of Hester's true character may have some conceptions of the sacrilegious scene we witnessed. It would require pages to tell of his infamy; but we would simply say that he is the most brutal, wholly corrupt and polluted scoundrel that treads the soil of North Carolina, and he is looked upon as such by the whole State, for his infamous character is notorious. Yet, such a man opened this Republican Convention with prayer, and preached them a sermon. Honest Republicans, blush for shame to be found in such company, and for decency's sake come out from among them.

We think that the Radicals lost many votes here. We heard of one Republican saying, after witnessing the day's proceedings, "If that be Republicanism the Lord save us from Republicanism." The better class of Radicals were disgusted and the Democrats aroused.

REPUBLICAN DEMORALIZATION

Since the publication of Mr. Bluford Wilson's testimony, taken by the Whiskey Ring Committee, the Republican papers have cautiously refrained from talking about the "useless investigation" inaugurated by [illegible] they print parts of the testimony, hang their heads in silent shame and philosophically discuss the silver question. They claim that upon the financial issue they must come the issue, and strive in vain to push the reeking mass of corruption from the sight of intelligent voters.

But the lowly politic cries out for relief, and every effort made to mitigate the suffering is met with resistance by the counselors of Grant, who are directing the Hayes campaign. Even in the face of the surgeon the Republican quacks put a salve of whitewash upon the Secor Robeson's sore, and when accused of malpractice, turn to the people and ask to be justified by the election of Hayes, that they may continue the torture.

Secretary Chandler is re-opening the fast healing sectional wounds by sending incendiary documents to the South, and the venerable Dix, with a pretense of shooting snipe, now and then puts a load of shot into the tender flesh that has healed since the issues of the war were decided.

Can Hayes be trusted to cure the disease? The answer will come in November, and the people will decide that what is required is an entirely different system of treatment.

Hayes is of the old school, and will continue the present practice; indeed he has, by his endorsement of its principles, signified his satisfaction with the results so far attained. The cancer must be removed by the roots, and the heroic treatment is the only remedy.

DISTRIBUTION OF CAMPAIGN DOCUMENTS.

One of our Newberne correspondents writes us that, at least one half of the voters of that section, and perhaps of the entire state, scarcely ever read a newspaper.

In order to reach that large body of men Campaign Documents, Circulars, etc., must be largely distributed.

An excellent plan is this. Let the County Executive Committee wherever a paper is published, when they see a sensible article published secure the use of the type while in form and have a number of thousands of the article struck off. The expense will be small, and the advantages great.

By this course hundreds of good articles will be placed in the hands of, and read by thousands, who without it would never see them.

Another suggestion for the purpose of carrying out the distribution is *to publish* a list of the Chairmen of the County Executive Committees, with *the post-office address* of each, so that there may be an exchange of documents, circulars, etc, for distribution.

These suggestions are made with a view of getting the Democratic press of the State to co-operate with our State Executive Committee in the work of disseminating political information among the people. The Committee are doing rapid and efficient work—all, in fact, that it is in their power to do. The press of the State can supplement their labors by adopting the above suggestions.

THE WILMINGTON RATIFICATION MEETING.

Last night a grand ratification meeting took place in Wilmington. The *Morning Star* of yesterday said of it:

"We ought to have a glorious time.—There will be speeches by able orators, music and illuminations, and the heartiest rejoicings. Judge Fowle, one of the most incisive, brilliant and logical speakers in the State, will make an address on the issues of the campaign. He will be introduced by Hon. George Davis, than whom, in all America, there is no more silver-tongued and graceful an orator."

PERSONAL INTELLIGENCE.

Sammuel T. Carrow, it is said, has come out for Tilden and Vance.

"Wafting the ensanguined underwear" is the way the Cincinnati *Enquirer* speaks of "shaking the bloody-shirt."

John Newcomb, just before dying in Arkansas, confessed the commission of a murder, and said, "I am bound for hell."

Moody has built and occupied a $10,000 house at Northfield, Mass., and now, unlike his Master, he has where to lay his head.

Col. G. N. Folk, of Caldwell, and C. F. Young, of Yancey, are in nomination for the senate from the 35th District, composed of Burke, McDowell, Caldwell, Yancey and Mitchell.

The colossal statue of Washington was safely landed in Philadelphia last week, and will be erected on the Centennial grounds. It is twelve feet high, and was cut from a solid block of marble. The site selected for it is between the Main Building and Machinery Hall.

Bishop Quintard, of Tennessee, during his late visit to England, made general collections amounting to $13,000, and also received from a lady $35,000, of which $25,000 is to go towards the erection of a theological hall in some portion of the South, and the remainder for the foundation of two free scholarships.

The South Carolina planter whose body was recently buried on an immense pile of green wood probably caught the idea from a wealthy bachelor near Charleston, who had a cast-iron coffin made, and directed his overseer to have the remains reduced to ashes on a pyre of twenty cords. The key was dropped into the casket through a small hole made for the purpose, and the box was thrown into the Cooper river.

It affords us pleasure to hear that Mr. James Waters, Sr., of Lenoir county, and his two sons, John and James, have proven adult with the Republican party ever since its organization in this State. A heretofore prominent Wayne county Republican assured us on Saturday last that he would vote Democratic this year. We withold his name by request.—Goldsboro *Messenger*.

POLITICAL NOTES.

The Democrats of Alabama carried the State in 1874 by a majority of 13,000, while the majority for Lewis, Republican, in 1872, was over 8,000.

The Chicago *Evening Journal* thinks that Tilden should be elected because he only wears a No. 5 boot. Yes; but he will draw on a pair of No. 13 when he begins to kick Radical thieves out of office.

New York *Sun*: So logical, so sound, and so strong is the ground taken by Gov. Tilden, in his letter, on the great public question of the times, that his adversaries have been unable to make a successful assault upon any part of it.

New York *World*: The farmers sees that eight years of Grant Republicanism have changed prosperity into adversity, that the products of his farm are selling for less than it costs to raise them. Has not the farmer, then, the best of reasons to work and vote for a change?

New York *Sun*: It has been suggested that the only way to save the Republican party from defeat in November is for the Republican State Convention, yet to be held, and other political bodies, not only to disavow the acts of the President, but to discard him completely. We should like to see that experiment tried by the grannies who give this cheap advice.—They might as well propose to dissolve the whole Republican organization, as the best mode of electing Hayes.

New York *Herald*: The partisan Republican papers tell us of the Boys in Blue Convention which is to be held very soon in Indianapolis. This is to be a political convention, composed of Republicans who claim to have been in the army and adopt the old army names and phrases for political ends. Gov. Dix is at the head of the movement. We wish that the Governor would throw his great influence against this or any similar organization for political ends. It prostitutes the sacred name of soldier. It drags the army down to the level of partisan politics. It is an imposture. There are thousands of Boys in Blue who will vote for Uncle Sammy Tilden, and any Republican convention that proposes to represent them is necessarily a fraud.

CAMPAIGN NOTES.

Maj. Engelhard addressed the Tilden and Vance Club of Morehead city, Tuesday night, and at Newport on Saturday.

The Radicals of the 11th Senatorial District, (Greene and Lenoir) have nominated W. W. Dunn for the Senate.—Goldsboro *Messenger*.

Reidsville *News*: There will be a Tilden and Vance Flag raised in this place next Saturday the 12th of this month; a Tilden and Vance club will be organized and several speeches delivered on the occasion.

Pee Dee Courier: Some few of the radicals around here say Settle will be elected, but not one of them will accept a bet to that effect. They are afraid of losing.

Pee Dee Courier: A private letter from Montgomery county says: Our county is becoming enthusiastic for Tilden, Vance and Col. Steele. Col. Steele will get 200 more votes in this county than any other man we could have placed upon our ticket. His nomination is going to add not less than one thousand votes to the Democratic vote of this District at the November election. Montgomery is certain to do her share for him in the coming election.

NORTH CAROLINA.

The Whiting Rifles, of Wilmington, went on a pleasure excursion to Smithville Tuesday.

Durham *Herald*: A protracted meeting has been going on for the last week at the Baptist Church. Bro Jordan has been preaching all the week. Several converts have been made.

Reidsville *News*: P. D. Spencer was shot and painfully wounded in the left leg, on last Thursday in a personal rencounter with a man by the name of Felker, who is a traveling patent pump agent. We learn that the difficulty grew out of a persistent effort on the part of the man to sell Col. S., a pup.

The last Congressional Conference committee that had the River and Harbor bill under consideration reduced the appropriation for the Cape Fear river from $150,000 to $12,000. It had been reduced by the previous committee from $200,000 to $150,0. "Thankful for small favors," &c.—Wilmington *Star*.

[For the News.

The Building And Loan Societies of England.

517 BROWN ST., RICHMOND, VA., August 8, 1876.

Mr. Editor:—Having just had placed in my hands, a recent issue of the Charlotte, (N. C.) *Daily Observer*, containing an extract from your journal, of the important decision of Judge Bynum, in the Supreme Court, I would deem it a favor if you will allow me a space in your paper to give your readers some information respecting the working of some English Building Societies. Such societies in that part of Europe are carried on very extensively, some very bad in their construction being of no use at all to the working man depending on his weekly wages. Others are the reverse, being a perfect boon to the mechanic, and thousands have now houses and lots of their own who would never have realized a brick, if it had not been for the assistance given by such means. Some charge large interest for the money, and unless great care is used in the selection of the society, the member may ultimately be worse off than when he entered.

I have belonged to several there, and am somewhat acquainted with their workings. The plan that is of the most benefit to the subscriber is what is called "The Star Bowkett;" they number up to the present time 200, some have entirely worked out, and others are at the end of their term, while new ones keep on forming. They are the only co-operative societies existing, of which I will just give an outline of their principal working.

Say 200 members, subscribe 50 cents per week for three months. Prior to the sum of $1,200, which may be realized in that period, being at the bankers, an appropriation meeting is called and the one share ballotted for the member getting it, pays back to the society say $10,00 per month, together with his or her subscription of $2 would not amount to so much rent as he would have to pay under a landlord and no prospect of the property being his. No interest is charged for the loan or interest given for the subscriptions lent the society. The plan is so simple that very few can but see the result of the scheme, a member lends the society a small sum (his subscription) and the society lends the member a large sum for a given time.

The member's subscriptions at the termination of the society which generally lasts twelve to fifteen years, is returned to him deducting a small per centage for expenses, so that the member not only gets his property, but also has saved a small sum besides.

Another feature is the result of these societies. The first two years the appropriations may be at a premium, netting the lucky member as much as $200, which is clear gain (with only expense of transfer of books,) to the member not wishing to use the money at that time. The expenses are kept very low and the fines small, and should the member not be able to keep up the subscription, can withdraw his money up to about four years, losing a little by discount, after that time the whole amount is returned to him without any deduction.

The lawyer's and solicitors charges are fixed and a building committee voted four members present to examine the property free within a certain distance, saving by that lawyers fee's very considerably.

To protect the members, there should be a clause inserted among the rules, that is, "that members at all times during business hours should be able to inspect all books belonging to the society" of which he is a *bonafide* member. A denial by any officer of the institution should subject him to dismissal. This would greatly prevent fraud—such is an outline of the only co-operative Building Society giving lender and borrower equal rights, without being subjected to extortionate interest.

The rules are copy-right, and have had a sixteen years test. I send enclosed prospectus of the last society formed, and any information that may be of interest to any of your readers, I would gladly give as far as I am acquainted with its workings.

Yours Respectfully,
JOHN J. GARNER.

Hard on the Radicals.

[Wilmington Journal.]

A Georgia insurance agent took passage for himself and his family not long since on one of the trains leading into Wilmington. When he entered the car he enquired of the conductor if a bevy of men who were in the car, pointing to them, were not Radicals. He replied, "I thought so; I know them by sight; they all look alike; give me seats in another car if you please."

An invoice of two hundred and fifty mocking birds from Texas has arrived at the centennial exhibition.

The Emperor Alexander of Russia said with good reason that the atrocities in Bulgaria had lost Turkey the sympathy of Europe. According to the latest estimate, the brutal Circassians destroyed there 36 villages and slew 12,000 people.

Commodore Vanderbuilt, in a religious conversation on Friday with his pastor, Rev. Dr. Deems, expressed his full belief in biblical revelation and his implicit trust in his Saviour, Jesus Christ. "I am not," he said, 'afraid to go. When the Lord calls me, I shall be ready; but oh, I hope I shall be spared a repetition of the agonies that I have suffered!"

The Church of England Temperance Society has for some time tried the experiment of establishing stalls for the sale of non-intoxicating drinks. Thirteen of these stalls have been opened in London, and their success has encouraged the society to extend the system to other towns. A plan has also been devised to send wheelbarrows through the agricultural districts at harvest time in order to supply the harvesters with temperance drinks.

THE LETTERS OF ACCEPTANCE.

Press Comments and Opinions.—Will Satisfy the Country.

[New York Herald.]

Altogether, the letters will satisfy the country and strengthen the Democratic canvass. The letter of Mr. Hendricks is somewhat flippant in parts and with a stump speech tone about it. The letter of Mr. Tilden is in the best taste—a model of dignity and reserve, without a word that could offend. It is the letter of a shrewd, able, independent statesman, and will have weight with the country. The one thought that will gratify men of both parties is that in the essential principles of the canvass Hayes and Tilden take high ground.

The Business Interests.

[New York Evening Post.]

As what may be comprehensively called the business interests of the country are now suffering from unprecedented depression, that part of the letter which treats of the causes of the depression and the remedies for it will be read with the greatest interest; and both branches of the subject are treated with a clearness which comes only from a thorough understanding of all that relates to the subject.

A Magnificent Send Off.

[Louisville Courier Journal.]

The letter of Governor Hendricks, whist not so detailed, sustains in every part the utterances of Governor Tilden. The two Governors are, therefore, in perfect accord. They give the Democratic campaign a magnificent send-off. Their letters will impress themselves upon the minds and hearts of millions of their countrymen, and may be accepted not only as foretokening a glorious Democratic victory in November, but as disclosing a glorious Democratic policy which will be inaugurated and put into practical effect from the 4th of next March.

The Wisdom of Statesmanship.

[Albany Argus (Dem.)]

In it the wisdom of the statesman and the candid simplicity of private citizenship are blended. No man can read it without feeling the conviction that Governor Tilden realizes the fact that he has been nominated for the office of President, not to secure the success of a party, but to promote the prosperity of a people, to enforce in their government the adoption of sound principles, to insure the prosecution of a sagacious policy, to extend proper and equal protection to every individual and every interest, and to inaugurate necessary reforms in all departments of the public service, and his record affords abundant guarantee that these great ends will be attained under his administration as President.

Reform the Key-Note.

[Brooklyn Eagle (Dem.)]

Reform is the key-note, watchword and basis, the Alpha and the Omega of Mr. Tilden's letter. His treatment of the subject is characteristic. He is nothing, if not practical: he is nothing, if not intrepid, cogent and candid. The reader will find no gushing, and no school-boy twaddle in his letter. It is crammed with statements of facts and propositions. He does not try to tickle the ear. He goes straight to the understanding. He reposes on truth, and borrows nothing from rhetoric. He makes out a case for the people, not as an attorney for one side, but he delivers a judicial summary that is just in its views, complete in its narrative, profound, simple and practical in all its recommendations.

Two Souls With But a Single Thought.

[Philadelphia Times.]

Both Tilden and Hendricks, although presumed to represent antagonistic convictions on the financial question, plod on smoothly and pleasantly, each in his own way, until they find themselves as 'two souls with but a single thought" on the vexatious issue of specie payments. They started like wandering political apostles at the broad mouth of the Democratic stream, where its waters are divided by green islands of hope and sterile rocks of discord; its banks separated invisibly by distance, and the voices on either shore unable to mingle with each other, and they have both journeyed leisurely toward the fountain until the narrowing stream familiarized them with each other's echoes, and finally brought them hand in hand and face to face at the fountain of old-time Jackson currency. * * * * *

Too late; too long, are the four words which will sum up the whole field of objection to these letters, and, as they shall be read and studied from day to day, they will be likely to grow more and more formidable as elements of the canvass.

The One Carefully Studied, the Other Offensive.

[N. Y. Tribune.]

Governor Tilden's letter bears the marks of careful study and elaborate preparation. Whoever of his opponents was looking for a document which would expose his weak points or unnecessarily lay him open to attack, or furnish arguments and capital for the opposition, will be disappointed.

Of Mr. Hendricks's letter it is hardly necessary to say more than that it is all that Governor Tilden's is not: a very bitter, narrow, offensive, partisan document. The two are in marked and decided contrast with each other throughout. Nothing could be in worse taste than the small partisanship and low demagogism with which Mr. Hendricks has seen fit to discuss the political situation in this letter of acceptance.

NEW ADVERTISEMENTS

1876. Circular. 1876.

The undersigned take this opportunity of thanking the people of Raleigh and vicinity for their liberal patronage during the past season, and by fair dealing we trust to merit their confidence in the future.

In order to meet the demand for the approaching Fall trade, we have placed our orders in the hands of leading manufacturers of FINE SHOES, some of whom exhibit their productions at the Great Centennial Exposition at Philadelphia, which, for style, quality and price, cannot be surpassed.

We also invite attention to our complete stock of TRUNKS, SATCHELS and VALISES. In Men's and Boys Wear, we shall introduce the celebrated Newark, (New Jersey) work. In Ladies', Misses' and Children's Shoes, Philadelphia work will be preferred. For Farmers and Mechanics, we shall keep a full supply of Kip Boots, Brogans and Plough Shoes—prison work.

Again thanking you for past favors, we hope by personal attention to the wants of the trade to merit your patronage in the future. Very respectfully,

CONGRESS.

Another Political Debate--Committee Agreed on the Indian Bill---Proposed Reduction--Nominations--Lamar Sick--Political Resolutions in the House, &c.

WASHINGTON, Aug. 10.—SENATE—The Senate is discussing the report of the Conference Committee on the River and Harbor Appropriation Bill.

The Hawaiian treaty will probably fail this session. The Senate favors it, but a vote could not be reached without debate, for which there is not time. Only Mr. Sargent, of California, seems [illegible]ly anxious to push it.

The River and Harbor Bill presented by the Conference Committee, passed, 36 to 10.

Political debate resumed. Mr. McDonald, of Indiana, said he would support the resolution of his colleague because he desired the people of the country to have light on the subject. It was true that these documents were *ex parte* in their character, but with all that they were much more fair and less partisan than the comments made on that affair by the partisan press of the country, and by Senators on this floor. He denounced the lawless outrage committed in South Carolina, or those committed anywhere else. He then quoted from the documents bearing upon the case, and argued that the white man, Merriweather, was killed before the negroes were hurt, but this circumstance had been studiously kept down in the discussion.

A resolution providing temporarily for the expense of the government, passed.

Adjourned.

The House Conference Committee yielded to the Senate, and have agreed upon the Indian Appropriation Bill, omitting to transfer the Indian Bureau to the War Department.

Secretary Morrill desires a reduction of force in the Treasury Department to take place on the 1st of October.

Nominations:—Edward Wilkins, Collector of Customs, Baltimore; Louis P. Olds, of North Carolina, Consul to St. Helena.

Lamar, of Mississippi, is confined to his room.

Congressman Lewis, of Alabama, is among those sued by Hallet Kilbourne for false imprisonment; the amount claimed is $150,000.

HOUSE.—The call of the House is progressing on the Texas Border Bill as amended by the Senate Committee, and remains on the Senate calendar.

The Senate Committee has so amended Blaine's educational amendment to the constitution as not to exclude the bible from schools.

The roll call shows a quorum present. The House is voting on a resolution introduced by Mr. Scott Lord, of New York, in deprecation of irregularities in the South, and declaratory that all citizens should be secure in the right to vote.

Lord, of New York, offered a resolution reciting that the right of suffrage prescribed by the constitutions of the several States, is subject to the 15th amendment, and that the service of said right should be faithfully maintained and observed by the United States, and that it is asserted that the exercise of said right is restricted in some States, notwithstanding the efforts of good citizens, and controlled by fraud or intimidation and violence, so that the object of the 15th amendment is defeated, and that all citizens, without distinction of race or color, are entitldd to the rights conferred by said amendment, and declaring that all attempts by force, fraud, terror, intimidation or otherwise, to prevent a free exercise of the right of suffrage, should meet with certain condign and effectual punishment; and that in any case which has heretofore occurred or may hereafter occur, in which violence or murder has been or shall be committed by one race or class upon another, prompt punishment of the criminal or criminals is imperatively demanded, whether the crime be one punishable by a fine and imprisonment, or one demanding the punishment of death. The question was divided; the declaration or resolution was carried by a vote of 174 to 2, and the preamble by 121 to 31.

The committee on Naval Expenditures reported the following:

Resolved, That Isaiah Hosseoln, Chief of the Bureau of Construction and Repairs of the Navy Department, is unworthy and incompetent to hold that position, and that the interest of the Bureau, the Department and the Government require his removal.

Resolved, That by reason of the negligence of George M. Robeson, Secretary of the Navy, and his order to pay the firm of Tilton-Wheelwright & Co., the claim presented by them in January 1874, the government of the United States was defrauded by said Tilton, Wheelwright & Co., of the sum so paid, to wit: $32 019.

Resolved, That a copy of the annexed testimony, together with the reports of the majority and minority of the Committee, and of these resolutions, with notice of the action of the House of Representatives herein, be laid before the President of the United States by the clerk of this House. Adopted.

The River and Harbor Bill as reported, was adopted by a vote of [illegible] to 55.

The bill continuing the appropriation to Monday next, was passed.

The majority and minority of the New Orleans Federal Officer Committee, was reported and ordered to be printed.

Adjourned.

Convention at Liverpool of the International Cotton Exchange --Outline of the Proceedings.

LONDON, Aug. 10.—Eight American, three Dutch, one London, and six Liverpool representatives of the cotton trade, met in convention here, yesterday. Mr. Samuel Simpson, of New Orleans, presided. He stated the objects of the meeting as declared in a resolution of the American National Cotton Exchange, inviting it. Mr. W. B. Forwood, of Liverpool, endorsed the objects of the meeting. Mr. W. P. Campbell, of New York, moved that this conference recommend the formation of an International Cotton Association, to promote efficiency and to extend the usefulness of the various associations of Europe and the United States; to secure united and harmonious action in considering the various questions affecting the agricultural, commercial and manufacturing interests of cotton, that the welfare of the cotton trade may be better protected and promoted. Many delegates being unable to bind their respective associations, the resolution was withdrawn.

A resolution was offered by Mr. Reynold, of Norfolk, Va., which stated that it was the opinion of this conference that the present system of conducting arbitrations on the quality of cotton in Liverpool is unsatisfactory, and that the Cotton Brokers' Association be requested to appoint a Committee to consider some more efficient means of assessing allowances to be made on cotton bought and sold and to arrive. The resolution was passed after considerable discussion.

Mr. Forwood, of Liverpool, moved that in the opinion of this conference, arbitration upon the quality of cotton should be based upon the grade, and that the value should be fixed according to the official qualifications of the day. The motion was adopted.

Mr. Nicholson, of Liverpool, moved that Liverpool-drawn samples of American cotton are, on an average, worse in appearance, and, consequently in the class by 1 1-16 D to ½ D per pound, than those drawn in America, before cotton is compressed, and that severer pressure will further deteriorate the class. The motion was unanimously adopted.

Mr. Samuel Smith, of Liverpool, moved that it is desirable that cotton should be sold in America at its net weight, and that the various exchanges in America be requested to endeavor to give effect to this recommendation. The motion was unanimously adopted.

Other resolutions were adopted unanimously to the effect that the system of sampling cotton in America should be the same as the Liverpool system; that it is desirable that the same classification of American cotton should be adopted in all European and American markets, according to the standards to be furnished by the Liverpool Association, to be ratified by American National Exchanges; that the several exchanges in America be requested to appoint inspectors to certify the condition of all cotton exported; sufficient care is not taken by shippers in delivering cotton at Liverpool, which should be amended, and that this conference adjourn until next July, to meet at Liverpool at the call of the United Association of Liverpool, and the Liverpool Cotton Brokers' Association, which are empowered to invite delegates from American and European Exchanges.

North Carolina and Virginia Cotton Reports.

NORFOLK, VA., August 10.—The Cotton Exchange of this city makes the following report of the condition of the cotton crop for July. From replies received from twenty-eight counties in North Carolina and Virginia, this report is compiled: Ten counties report the weather as having been very favorable; eight report the weather as having been exceedingly hot and dry; thirty six report the weather hot and dry until about the 24th of July, since which time they have had frequent rains; and two complain of the weather having turned too cold. Thirty-two report weather more favorable than last year; fourteen about equal, and twenty-four less favorable. Nineteen report the stands much better than last year, thirty-three equally as good, and eight not as good, though a fair average. Six report the weed as forming. Blooming and bolling is better than for years past; forty-six equal to past year. Two report shedding, and six not forming or blooming well. Twenty-four report the general condition of the crop good, and better than last year; twelve report condition not good—weak—being very small, with the appearance of rust, caused by excessive rains. All report, with few exceptions, good, healthy condition, clear of grass and weeds, though rather smaller in growth than last year. One county reports the appearance of lice, and one county as having suffered so much from drought that they do not expect to make more than half a crop.

Communication Between Crook and Terry Cut Off.

WASHINGTON, Aug. 10—Official from Gen. Crook, August 4th, says communication with Terry was cut off by a movement of Indians. Crook was to follow the Indians next day with fifteen days' rations. If he found the hostiles too strong, he would swing around to Terry.

Democratic Nomination in Alabama--About 10,000 Majority for Houston--Damage by Rain.

MONTGOMERY, ALA., Aug. 10.—At the Democratic Convention held at Gadsden to-day for the 7th Alabama Congressional District, Gen. W. H. Forney, at present one of the representatives at large, was nominated by acclamation.

Returns have been received from fifty-four counties, and Houston's majority is 36,671. The counties to hear from, at the election in 1874 gave a Democratic majority of 3,602.

The Senate stands 27 Democrats, 1 Independent, and 4 Republicans. The House will stand 83 Democrats, 2 Independents, and 15 Republicans.

The rainy weather still continues, and farmers complain dreadfully of the cotton-worm, which is already doing much damage. The rain washes off the worm destroyer as fast as applied. The corn crop is the largest ever made in the State.

Condition of the Crops in Georgia.

AUGUSTA, Aug. 10.—Taking a broad view over the section allotted to this exchange, we conclude the crops generally are in a very flattering condition as a whole, pointing, should there be no future disaster, to a large yield. Four letters complain of rust; eight of grasshoppers.

SAVANNAH, Aug. 10.—The present condition of the crop is favorable, though it is critical. A yield of from 10 to 20 per cent. over the last is expected. Thereare complaints of rust from the light pine lands and of caterpillar from the rich bottom lands. The extent of the damage therefrom depends upon the character of the weather during this month.

Rumor that Sherman will Retire from the Army.

NEW YORK Aug. 10.—The *Tribune* has the following: "The St. Louis *Republican* has obtained information from what is deemed an entire trustworthy source, that General Sherman, through second parties, is negotiating for elegant property in Cote a drilliant and fashionable suburb of this city, for his future residence; that he will certainly retire from the army after the 4th of March, in the event of the election of Hayes and Wheeler, and that General Grant will be appointed General Sherman's successor."

Nominations and Platform of the Missouri Republican Convention.

ST. LOUIS, Aug. 10.—The Republican State Convention nominated Mr. Geo. A Finklenberry for Governor, and Mr. Geo. C. Calhoun for Lieutenant Governor.

The platform is very long; starts with the declaration that the preservation of the Union was accomplished by the Republican party, and tha the perpetuation of our existence as a nation depends upon the continuance of the Republican party in power.

Convention of Cotton Men.

NEW YORK, Aug. 10.—The Executive Council of the National Cotton Exchange of America met at the New York Cotton Exchange yesterday. The Secretary presented his report for the past year. The meeting is concurrent with the International Cotton Convention, held in London to-day.

Michigan State Convention.

DETROIT, Aug. 10.—The Democratic State Convention nominated Geo. W. L. Webber for Governor, and Julius Houseman for Lieutenant Governor.
